Insights

- Fast paced environments drive need for intuitive safety features to reduce risk of injuries and lacerations
- Slice finger-friendly® ceramic blades are rust resistant, so no need to replace knives if left out in the elements
- Slice finger-friendly® blades last 11x longer than steel blades making them the perfect solution for abrasive materials commonly found on the jobsite, like drywall

SPG Safety Knife Programs provide annual cost savings by reducing shrink, product damage, and employee lacerations.

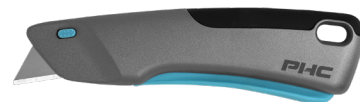

Eliminate the Cutting Hazard with American-Made, Eco-Conscious Concealed Safety Cutters

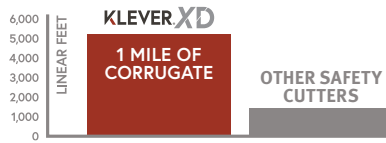

Redefine Blade Safety with Advanced Ceramic Finger-Friendly® Blades that are Safe to the Touch and Last 11X Longer than Traditional Blades

Achieve Confident Cutting with the Industry-Trusted Brand of Safety Knives and Utility Blades for over 75 years

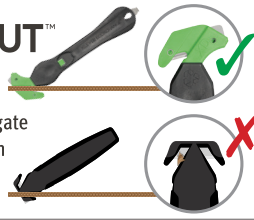

**50% STRONGER &
LASTS 4X LONGER**

PROPRIETARY
SMOOTH-KUT™
TECHNOLOGY

Prevents corrugate
from clogging in
the blade

Klever XD Safety Cutters are engineered for EXTRA STRENGTH and improved cutting speed
